sessions by domain experts on
topics, that are relevant to high
potential, emerging
organisations such as your's.

"Effective decision-making can be seen as an optimal link between memory of the past, ground-realities of the present and insights of the future." – Amit Ray

An organisation is a product of a series of decisions taken over a period of time. The decisions of the CEO has a powerful impact on the direction which the organisation will take. Most often the CEOs are confronted with decision making dilemma - between the short term and the long term, between two seemingly right decisions and between opposing factors that have a powerful impact.

Breakfast Booster with Essae that will enable you to find answers to questions such as:

- Is decision making a difficult task for your organisation?
- Do you find yourself in a dilemma when confronted with difficult decisions?
- Are you aware of your decision making style and its impact?
- Do you find yourself either reliant on data or intuition for decision making?
- Are you aware of the process that leads to good decisions?
- How do you overcome individual perception and bias to ensure holistic

Mr. Rangan Mohan has over 29 years of experience in the IT industry and has been the President and CEO of two of India's well known IT and BPO companies – Mphasis Ltd and Hinduja Global Solutions Ltd.
